

The Efficiency Nova Scotia’s Green Heat Program offers incentives to homeowners who purchase advanced solid-fuel burning appliances to replace an existing electric-heating system. Appliances purchased must meet certain requirements. Those requirements can be summarized as follows:

APPLIANCE TYPE	REQUIREMENT
Freestanding wood stove	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Wood fireplace insert	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Zero-clearance wood fireplace	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Freestanding pellet stove	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Wood furnace	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1-10
Pellet furnace	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1-10

Rebates offered under the program can be summarized as follows for each appliance type:

APPLIANCE TYPE	REQUIREMENT
Freestanding wood stove	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Wood fireplace insert	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Zero-clearance wood fireplace	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Freestanding pellet stove	Emissions ≤ 4.5 g/h as per EPA or CSAB415.1-10
Wood furnace	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1-10
Pellet furnace	Emissions ≤ 4.5 g/h as per EPA or ≤ 0.40 g/MJ as per CSAB415.1-10

Although the program is intended to be permanent, it is suggested that you register sooner than later in order to start saving money. You need a pre-approval before you buy and install your new appliance. Other conditions apply, such as the need to have the installation performed within two months and inspected by a WETT certified professional.

For more information about the program and to download the necessary applications forms, visit Efficiency Nova Scotia’s web site at:

<http://www.energyncns.ca/energy-solutions/energy-efficient-home-heating-green-heat/?user-type=4#simple3>

For your records, a certificate of qualification can be sent to you upon request.
